A history from the series of street fighter with original concept and famous illustrators from Capcom. This one groups only the capcom artists and represents really the hearts of the franchise. It’s a little less big than the Udon artbook but you could find some exclusive artworks inside.

Terrific book that’s 400+ pages of stunning artwork to celebrate 25 years of Street Fighter. The book is broken up in to sections for each artist with their comments, and where each artist has also provided an original piece of art for the book’s opening, and covers every Street Fighter game from Street Fighter 2 to Street Fighter IV and the various crossover and VS titles.Bonus points for the hilarious and absurd cutaway diagram for Shadowloo’s island hideout!!The book is highly recommended for all Street Fighter fans and those who love great artwork and video game art books!

SO MUCH ART SO LITTLE TIME LOVE THIS ITS AN UNREAL COLLECTION ART MASTER WORKS

Fantastic curation of art throughout the years. The binding is fine as long as you don’t violently turn the pages (I saw some reviews complaining about this). Some of the older images are a little pixelated but I’ll chalk that up to weaker scanning capabilities from back in the day. There’s some truly beautiful artwork in this book. Pages and colors are very bright.

Great artwork, great motivational inspiration.Only complaint and its a huge one is that the spine of the book is quite fragile.

The ultimate book for a fan of SF. I love it and it contains many pieces of work throughout the years and details on artist thoughts of different pieces.

Street fighter art is the best! Truly love this book
