Best Sellers Rank: #475,978 in Books (See Top 100 in Books) #139 inÃ Â Books > Arts & Photography > Drawing > Colored Pencil #330 inÃ Â Books > Arts & Photography > Drawing > Pencil

Customer Reviews

We had borrowed this book from our local library and my daughters liked it so much I decided to just get them a copy. It has a lot of cool and easy to medium things to draw. I would recommend this book to anyone who likes to draw and would like inspiration for new things to try.

The contents are decent, but the book fell apart the first time we opened it up. Three days later, there is no book, just loose pages. I wish I'd paid more attention to the other reviews!

This is a mixed review because the material in the book itself is very good, but the book is very poorly made. The binding fell apart upon my first opening and all the pages are now separated from each other. Yes, I can punch holes in each page and reconstruct the book, but wouldn't it be much better to have the manufacturer do a proper job in the beginning?

We purchased this for our daughter who found this through a friend. She was able to challenge

herself by drawing. It was purchased when she had turned 9 and it’s very easy for her to understand and learn the basics! Would recommend it

BOOK FELL APART THE FIRST TIME WE OPENED IT.... I simply give it 2 stars because it had the prime option for ordering. The book is great.... but now I have to spend extra time trying to repair a book that we haven’t even used once... I do not recommend unless u like repairing books

The ideas are nice, but the binding is terrible - pages keep falling out, must be some really old glue.

Bought as a gift, she seems to love it and has already produced some very high-quality drawings using it.

I gave it as a gift, so can’t say personallly from use, but in looking through it, I would say it looked like a 5 star.
