Ben Richmond is aÃ Â science journalist who writes about dinosaurs, outer space, and the origin of words for Vice magazineÃ¢â ¬â„¢s Motherboard website, and has contributed to The Believer. Ben has previously written Why Is the Sea Salty? and What Are the Three Branches of Government? in the Good Question! series.

This book looks like it would be good for children, it is after all a picture book. However, there is copious amounts of lengthy explanations for each page. Not even my fourth grader managed to get through the whole book. Frankly I was bored before I finished. The illustrations are well done. The idea behind it is good. But the writer was clearly not familiar with the attention of children.

The book is for school-age children. It should not be ordered for students who are younger than 8.

Good book, will be mailing it to my Grandson in Moses Lake, Washington. His parents will need to read this to him.
