Customer Reviews

2008: by Marsha D. M. Fowler- This book guides nurses in understanding the specific implications of the ANA Code.

good book

A must have for all nurses.

This book is a breakdown of the code of ethics in segments. It’s decent but not if price is too high. Not many pages either.

This has the "meat" of what nurses need to know about ethics. Had these been stressed and put into practice throughout my years as a nurse, it could have impacted my career even more.

Its a book. It worked for the class i needed it for. I got a great orice on this book.

Vital book for nursing. quick delivery. good use of book. I would buy again

It was what was promised. Will be ordering again

Fundamental ANA document for nurses. Easy to read and understand, every nurse should have this book. Great reference for papers if in school
