Not very long ago IÃƒÂ¢Ã â ¬Ã â„¢ve read an article in one of magazines about what to do if you are in a foreign country and have some unpleasant situations. The author gave a list of probable events and for each item of this list short description of your right responses. This book reminded me the above article ÃƒÂ¢Ã â ¬Ã â œ briefness and absence of serious recommendations. I give three stars only to authorÃƒÂ¢Ã â ¬Ã â„¢s work, not to bookÃƒÂ¢Ã â ¬Ã â„¢s content.

This is an awesome book on survival. Am so happy that I came across this great book that gives us great tips on survival skill in case of an injury or a disaster. It guides us on first aid in case of an injury and what one should do. It explains well the basics of prepping and so many things in details. It is well detailed and very informative and more so very easy to comprehend. It is an amazing book.

Impressive read.This is actually a very useful book. I believe we should always hope for the best and prepare for the worst.This book contains lots of value. including prep basics, fire craft, cpr etc. If anything happens, without any internet or phone signal, i can still pull this book out.Five stars

Very good book to give you advice in a disaster situation. It made me think of what I have done to prepare for a disaster situation. So I restocked my first aid and got together enough stuff for a 2 week long stay underground if need be.I wish the book was longer and gave you more info about if you had to stay in your home or if you were disabled and could not go far.Reminded me to update my medical first aide training. Well written and must have for everyone.https://www..com/dp/B01HWGH5VG/ref=cm_cr_ryp_prd_ttl_sol_8
