I have read many books and manuals on skip tracing and even wrote a few and seldom have seen any better information compressed into a package as tidy as this one. Valerie is an experienced professional and it shows. Valerie, thank you for sharing.Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Val, I read your blog and I must bow to your creative fiat.You must write a book, manual, paper or something, describing the tricks of the trade you've developed for the rest of us use.Just to let you know what I think.--Carnell Bonner,

SrÃ¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Based on your website and its awesome tips, I just bought your ebook. It is not as if I am a beginner, either, yet I still learned things just from your site. Can't wait to read the book. Appreciate your creativity and approach.- David Davis Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Thanks for your book Valerie. I plan to share it with a couple of my co-workers that are not well versed in skiptracing. I myself hate to be limited to lists, but they are important reminders for a beginner or those that don't have that 6th sense (I do.) It's almost impossible to teach someone to think outside the box. Not everyone is born with an "inquiring mind" so to speak... And of course everyone has to do things a little different depending on what state they are skipping in and what resources your employer/company will provide.- by Cheryl Kensill

PHD This review is from: Skip Trace Secrets - Dirty Little Tricks Skip Tracers Use I'm really glad I bought this book. It goes way beyond the basics, giving insight on creative ways to find a debtor (skipped debtor, that is) A lot of tips that save money and time. Not to mention, frustration, as tracking a skip

does provide.The author provides a wealth of hands on how-to steps and does answer her email with any questions that you may have. It was a nice surprise to get a reply. I recommend this book to anyone in the PI or collections business. It really is a must have for the beginner and nice to have for an old timer like me that needs to keep up with the fast advances in information that the internet has access to. The blog the author has is really nice, it has a few links posted I think as they are discovered and is well worth a visit every so often.
Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•Ã¢Â- Â•Ã Â¸Â•By Mandy ArroyoFormat:Kindle EditionThis one is a treat for me. Great insight into doing research and skip tracing with some really good lists of things to do and places to go. I appreciate that the book doesn't take up half it's pages to quote laws like some other skip trace books that I have bought before. It's a very helpful addition to my iPhone.

Customer Reviews

I am not one of those reviewers who gives a bunch of stars just because I paid for and read a book;

I was impressed by Valerie McGilvrey, the book is actually full of useful, real life tips and tricks. Granted, based on the book alone I wouldn't think she was as good as I am at finding skips, but then, I wouldn't exactly publish half the stuff I've resorted to, so who knows, maybe she really is better than me. I know I learned a few things from reading her book. :)

Thank you Valerie for respecting my time with short concise information. Hundred of up to date tips on internet searches. Author also included a free book with the shipment. I now have a lot more weapons to run down debtors.

Not a bad book, but I didn't find much information in it that was very secret either. Overall, not disappointed I bought it, but wasn't as good as I'd hoped either.

Smartest book I have read in a long time. Valerie has a great way to explain and relate to the audience. It is obvious that Valerie McGilvrey is in the business. These secrets can be used in many areas outside of skip tracing. I enjoyed the book and the way the writer presented it. Highly recommend.

I never knew what skip tracing was until I read this book. The first chapter explains what a skip tracer is in detail before going into details on how to become one yourself, which is very useful. The author explains very well how to locate debtors without harassing them and on how to stay within the confines of hte law. Useful resources on that you can use which are free or low cost are also presented. I also like her personal stories. The book is well-organized as the author separates the various tips into chapters: using social media, military records, free databases, etc. to locate debtors. She even covers how to get started and possible licensing you might need if you want to start your own skip tracing business. A good and informative book if you are looking into this career. highly rec recommend.

If your new to skip tracing this is a decent book to give you some ideas. If your even a novice you already know all of this. Nothing new and the author did not give away any trade secrets.

It was helpful, but it was mostly about how to repossess cars using skip tracing. I would have liked more information on other kinds of skip tracing.

Informative. More of an overview of the process than a detailed book.
