Synopsis

This edition is significantly altered in its updated form to justify a fresh ISBN. Most of the changes are more technical than visual, although the style of the map appears different as a result. Most of the changes occur on the Montevideo side of the sheet, thanks to our reasonably recent visit to the city. Uruguay is one of those smallish but nice places to visit. The interior is mostly ranching country, but pleasant to see. Colonia, across from Buenos Aires, is well worth a visit and Punte del Este on the Atlantic shore is the local Miami Beach. For my money, the best thing about Montevideo is the old Coca Cola fountain shop right out of the 1920s. It s like moving back in time!

Customer Reviews

Excellent map of Uruguay as a whole, and Montevideo and Colonia specifically.

I think it is a good country map, but I'd preferred to have a full map of Montevideo on the back instead of a partial map

Very helpful guide in recent trip to Uraguay
