Synopsis

In the 1950s, the Wade potteries of England and Ireland became famous for the miniature ceramic figurines sold under the Whimsies name. Decades later, Wade is still producing Whimsies and they are popular with collectors of all ages. Over 800 striking illustrations, mostly in color, detail the sets of Whimsies, along with their presentation boxes, advertising literature, and flyers. Over 160 black and white photos display the Wade makers' marks. The Tom Smith Party Cracker figurines, miniature village sets, premiums, and promotional figures are depicted and color and size variations are noted. Current values are found in both US dollars and UK pounds. Everyone who enjoys ceramic miniatures will treasure this book.

Customer Reviews

Canadians Ian Warner and Mike Posegay have been collecting, studying, and writing about 20th and 21st century ceramics for many years. This is their sixth book on Wade ceramics.

Very nice book! Just what I was looking for, which is a book for beginner collectors. My mother has been collecting red rose tea animals since 1982, for my son. She wanted a book for him that is easy to use and understand. This is the book. Just enough info to keep him informed of the value and the many different types of animals and which sets they belong to, along with the year they were made. This is a great value..pictures are color and very nice.

As a new collector, this book provided me with a LOT of info. Great pics, great pages. If you are into the new Wades tho, it’s not a really recent book, you’ll find little of the new stuff discussed.

This book has lots of information on the Wade figurines. The pictures of the figurines are accompanied with a description and some have the values listed. They can give a buyer some idea of what they could consider a reasonable price. I found it to be very interesting, and a good guide.

It had all the information I needed to complete myCanadian and American Red Rose tea Whimsey collection, and my Whemsey-on Why collection.

good item well packaged

Great service. Very pleased 5*****

Great information for the collector

also bought the other Wade book, has a lot of useful info in it
