Age Range: 2 - 5 years

Grade Level: Preschool - Kindergarten

Customer Reviews

The book is short, the pictures are wonderful, and my daughter loves the Bubble Guppies, so this book was a win. The only thing I didn't like about it was that a few of the opposites were presented in odd ways- like Gil driving a race car was "down" and Molly driving a truck was "up". I think there would have been much clearer ways to portray up and down to make it easier for a toddler to understand.

We love Bubble Guppies, but this book isn't the best. Instead of having simple 'BIG/SMALL' comparisons it has 'Gil is down low' and 'Molly is up high' or 'Molly is hot in the sun' and 'Deema is cold in the snow', just a little too much explanation for very small toddlers. If it wasn't Bubble Guppies it'd be a bust.

My son can't get enough Bubble Guppies and this little board book is perfect for him. He loves looking at it in the car and it just the right size. He is 18 months currently and has been "reading"

this book for the past 6 months and it’s still in excellent condition.

Super cute and small in size, for little hands.

My daughter loves bubble guppies and couldn’t find books anywhere but . This book is so cute and teaches kids about sizes too

Perfect size, bright, bold and well loved

My daughter has already memorized half of this book. She really likes it, and it appears to be helping with the concept of opposites.

My son loves books and the Bubble Guppies. It’s a great size for little hands and it’s easy to throw in a small bag (purse, backpack, diaper bag, etc.). The book doesn’t have very many, what I would consider, traditional opposites. Some are a little hard for my 2 years old to understand so I would suggest this book for a 4 year old that has traditional opposites mastered.
