Customer Reviews

"Describes such prehistoric people as Ice Age hunters and Bronze Age warriors. Pictures of artifacts representing every aspect of prehistoric life make this an outstanding curriculum supplement. The splendid illustrations are a tour de force. Holds wide appeal for research and browsing."--(starred) Booklist.Ã Â Ã Â

Full-color photos. A close-up look at the first people, from the Stone Age to the Iron Age.

I’m an adult but bought it for me. I find I can get a better and clear idea about the subject matter reading these books and I find the info easier to maintain. The info is simplified and backed up with images which helps maintaining the subject matter

This book was in a collection at the Burke Museum, at the University of Washington. My grandson started to read it, and I bought it to have. When he comes over, he will read it with me and we discuss it. It is one of the favorites...

Very nice book! It has lots of pictures, and the information is condensed nicely. I would not call it a

children’s book, but the information is presented in a simple enough form, I would say for age 10+.

Well illustrated and an interesting read for all levels.

I love these books. Gives basic information and great pictures. Always something new to learn.

love.

Wonderful pictures of Early Human artifacts and concise text information give students a clearer view of our Stone Age ancestors.

Like the visual presentation and the readable and lucid account.
