Synopsis

Congratulations! YouÃ¢â ¬â„¢ve found The Ultimate Travel Guide To Italy. Why You Need Lost Travelers First we would like to thank you for considering Lost Travelers as your guide book. Allow us to explain our beginnings, and the reason we created Lost Travelers. Lost Travelers was created due to one simple problem that other guides on the market did not solve; loss of time. Considering itÃ¢â ¬â„¢s the 21st century and everything is available on the internet why do we still purchase guidebooks? To save us time! ThatÃ¢â ¬â„¢s right. Since the goal is to be efficient and save time, we did not understand why there are several guidebooks on the market that are of 500 to 1000 pageÃ¢â ¬â„¢ long. We do not believe one needs that much bluff to get an overview of the location and some remarkable suggestions. Considering many guidebooks on the market are filled with Ã¢â ¬Å“suggestionsÃ¢â ¬Â• that were sponsored for, we have decided to take a different approach and provide our travelers with an honest opinion and decline any sort of sponsorship. This simply allows us to cut off any nonsense and create our guides the Lost Travelers style. Our mission is simple; to create an easy to follow guide book that outlines the best of activities to do in our limited time at the destination. This easily saves you your most valuable asset; your time. You no longer need to spend hours looking through a massive book, or spend hours searching for information on the internet as we have completed the whole process for you. The best part is we provide you our e-guides for one third the price of the leading brand, and our paper copy for only half the price. Here Is A Quick Preview Of Our GuideChapter 1: Italy at a GlanceChapter 2: Basic Survival GuideChapter 3: RomeChapter 4: MilanChapter 5: VeniceChapter 6: NaplesChapter 7: FlorenceConclusion Let us guide you for a better, safer and more enjoyable trip. Customer Reviews

"Travel brings power and love back into your life." - Rumi Happy Travels!

It has always been my dream to visit Italy. Italy is a country with great food, great sites, and wonderful people. This book is excellent resource for trip to Italy. It had great details and ideas. Also this book is well organized. Recommended.

The book is a joke...do not order it. It is like a bad 3rd grade report on Italy. The positive reviews are bogus!!!!!!!!!!

This book has everything you need if you plan to travel to Italy. Each chapter is dedicated to a major city (Rome, Milan, Naples, Venice) and in each chapter is first gives travel information (airports, busses, other forms of transportation), followed by hotel info, restaurant info, attractions, nightlife, shopping and special events and festivals. It not only lists these but also gives descriptions and contact info (address, phone number and website). You really could plan your entire trip based on the info provided in this book. Such a great resource!

This book needs a good editor. Not professionally written and no more helpful than the major guides.

Big zero with no informative information! Worthless.

I love Italy so much and I often visit this country. I like to read books about Italy and this is not my first read about this country. The book contains a whole bunch of information. You will find here information about history, climate, food and everything! It has nice "Basic Survival Guide" with information about money, health, safety and more. There are also chapters about specific cities like Venice, Rome, Milan and more. Cool read.

This is an absolute waste of space and money. It’s a thin pamphlet, with basically a list of

well-known cities in Italy, some landmarks, and a couple of sentences description per entry. No maps, no photos, no personal experience. No index. No nothin'. The glowing reviews are baffling, especially the one that says "it clearly provides all information exhaustively with pictorial views to go." Really? There are no pictures, aside from the cover, which is a stock photo of Venice. I'm thinking that some of these 'reviews' may have been written by friends of the author(s), who are unnamed. The text is in LARGE FONT with lots of spacing, so as to spread out the book's lack of detail.This is what your middle schooler might turn in as a last minute report. Here's a quote: "The official language in this country is Italian with over 90% of the population fluent in it."If you are the laziest traveler on the planet, then the book may be for you. But if it's the only one you read, you will indeed be a Lost Traveler.I've attached photos of some sample pages. Note that the phrases page has no pronunciations.

Most of these comments were written at the same time, within a few days after the book was published. And the sound like they're written by the same author. I smell a rat.
