Customer Reviews

I was hoping to learn more about navigating FamilySearch.org. I don't have a family tree here, so the information was irrelevant. I do have a family tree on Ancestry.com but use various sources to (FamilySearch.org) among them to try and fill in the gaps or verify information.So, from my perspective, this is great if you have a family tree on FamilySearch.org. If not, skip it.

I've been reading and trying to understand the workings of how to use Family Search. At this stage it seems a bit complicated, but sure. It will work out okay. I've used it a little but think it'll work.

Nice explanation of how the web site works.

Includes some excellent tips to help genealogists maneuver their way around FamilySearch.org.

Does what I needed it to do.

No help to me

Not much to it

only a thumb thru, haven't had chance to get into; liked what I saw.
