Customer Reviews

This book is amazing. It has so much information that I missed from my other National Park visits. I

purchased the Lonely Planet and Nat Geo park books and they were horrible. Pretty much everything you can find online, nothing more. This book has everything, trails, best sights, and itineraries. I was floored with all the places I missed during my tour of the Southwest parks. Buy this book and you won't need any others!

There might be better guides out there for specific national parks, but for a general guide for all of them.....this is the one!

This is great book and the second time I've purchased it. It includes great details about hikes, top sites, things to do, maps and places to stay. I use this book each time I am planning a trip to a National Park.

Love this book...looked at many other books about the National Parks...this is the most in depth...leaving in a couple of weeks for six months in the National Parks...this will be my constant companion...Thanks Michael for making my trip even easier to complete :)

This is the best. I'm traveling to many of the National Parks and this guide is complete with lodging, restaurants, good maps. I am very pleased to have this publication.

So much information, so many choices.

My wife and I took this with us on a trip out west to six National Parks (Zion, Bryce, Grand Canyon, Arches, Canyon Land, and Capital Reef). We planned our daily hikes and activities with this book and it was indispensable. Spot on tips and advice, and great descriptions of the trails,; it was a great investment (for so little money).

I am planning a trip to Acadia and ordered this guide. It is very well written and has lots of information. I like the cartography and extra tips for every park which I am using to plan my trip.
