Customer Reviews

This one was well-proofread, I didn't notice any editing issues, and the writing flowed well enough, but the characters and world felt pretty flat. Maybe it's just that this book wasn't my thing, but I never got really interested in the characters, and even when I wasn't expecting a particular development, it wasn't really surprising. Reading this reminds me a little bit of watching someone else play a video or computer game; little bits of it were interesting but I never felt invested in the outcome.

I had trouble with the pacing and getting into the characters. Once I got acclimated I liked the story. This is light on stats and building. Each quest builds stats quickly, stat farming is a glossed over.

Fun book.
