Kan MufticTraditionally trained in fine arts, Kan Muftic is currently working as an animation director on a Netflix project. He has worked as a visual development artist for many major projects and

franchises, with film credits including Guardians of the Galaxy, Doctor Strange, Godzilla and Jungle Book: Origins, and video game credits including Destiny and the Batman: Arkham series. Figure drawing has always been KanÃ¢â ¬â„¢s passion, and he has spent many years studying figure drawing and anatomy, which has had a significant influence on his professional work.

I bought this book from Target (it was cheaper to my surprise & delight. This is a seriously good figure drawing book, much better than I thought possible. The author cover several different types of figure drawing methods including the often elusive Frank Reilly Abstraction (both figure & portrait methods).This book is definitely in my top 3 figure drawing books and references. It would not be a stretch to name this my top (#1) go to figure drawing book, before long (haven't read the last two chapters.The author/artist himself (Kan Muftic) works for many types of companies and organizations. From traditional artwork (figure & portrait), fantasy and all in my forms of media including films and video games, such as The Guardians of the Galaxy, Godzilla (the newest movie) and Batman the Arkham series of video games. The author is seriously talented.I hope the author Kan Muftic will write a book strictly of the Frank Reilly Abstraction (& it's many variations for the figure and portrait). I would buy it in a heart beat. This is by far, one of the best art books I've bought in a long time, that I truly enjoy and am inspired from.
