Synopsis

This "Line of Light" ebook also includes the book "Why Am I a Christian Scientist" as well as "Plagiarism" written by Mr. Herbert W. Eustace. Mr. Eustace was class taught by Edward Kimball, and held several offices in the Christian Science organization. He was one of the Trustees of the Christian Science Publishing Society from 1914 through 1922. The following is Mr. Eustace's words in regards to the three books included in "The Line of Light". Ã¢â ¬Å“In March, 1927, a Conference was held in San Francisco of those who had been through class with me. This meeting traced the Line of Light from Eve to Science and Health.In February, 1929, another Conference was held in San Francisco, and established, Why am I a Christian Scientist?There has been a demand that the addresses made at these two Conferences be printed. I saw no way, however, for this to be done, as I had no notes whatever myself, but when I found that there had been taken and were in circulation some very full and excellent stenographic and other notes, I decided that it might be of value, especially at this time, to publish these addresses.With these notes before me I have filled them in, and I think have covered virtually every point that came up at the meetings.Whatever value these pages may have to their reader, that value will be permanent only as it takes him to the source of all intelligence, the one Mind, and in communion with that one Mind, points him to the true purpose and value of Science and Health.It was my first thought that the one who had so carefully prepared some of these notes should be the one to publish them, but the objection was raised that if I did not prepare them there might be a question as to their authorship; hence I am publishing them myself.I am adding the article on Plagiarism, which I have just written, because it seems to me to be timely.Ã¢â ¬Â•

Book Information

File Size: 395 KB

Print Length: 102 pages

Publisher: Footsteps Of His Flock tm (October 14, 2010)

Publication Date: October 14, 2010
