Synopsis

Following the release of their international best-seller, Exo-Vaticana, Thomas Horn and Cris Putnam were inundated with requests from around the world to be interviewed on radio, television, and in print media. What they discovered sent shockwaves through Christianity concerning the Vatican s advanced telescope, which sits on top of Mt. Graham in Arizona (USA) where the Jesuits admit they are monitoring something approaching the earth. After the author s initial report was published in Exo-Vaticana, the pope s top astronomer took to the airwaves and on the Vatican Observatory website to try and explain the role that he and other church astronomers are playing with regards to emerging ET Friendly theology, their association with the LUCIFER device at Mt. Graham, and their developing doctrines concerning extraterrestrial life and the impact it may have on planet Earth s religions; Christianity in particular.Now, armed with fresh information from the native peoples (that failed before a federal appeals court to stop the construction of the Vatican s observatory on one of their four holiest mountains), the authors set out with cameras and field investigators to unearth their most astonishing discovery yet. The mountain is said to be a portal, a gateway to another dimension. And, as the Vatican knows and the authors uncovered, it is not the only one.NOW, FOR THE FIRST TIME, ON THE PATH OF THE IMMORTALS REVEALS...*Unveiled! What Mt. Graham really is, and why NASA and the Vatican are there*Disclosed! What the Bible says about gateways and the beings that wait behind them*Discovered! Scientific evidence of, and signals from, life beneath the surface of the earth*Found! The ancient stargates and their association with vortex manifestations*Revealed! The role of CERN s Large Hadron Collider and its search for a portal*Uncovered! Gobekli tepe, Baalbek, and the secrets of the coming immortals*Deciphered! The worldwide grid that ties them all together*Exposed! The occult s countdown calendar for the return of their gods *Unearthed! Giants, cryptids, and their mysterious connection with gates In On the Path of the Immortals, internationally acclaimed, investigative authors Thomas Horn and Cris Putnam continue the greatest investigation of our time by exposing the facts kept hidden from the public by elitists and intellectuals who are planning mankind s assimilation under a coming savior, one whom the prophet Daniel foresaw as an alien god.

The Large Hadron Collider could open a doorway to an extra dimension and out of this door might come something, or we might send something through it. --Sergio Bertolucci, Director for Research and Scientific Computing at CERNThe idea of multiple universes is more than a fantastic invention and deserves to be taken seriously. --Aurelien Barrau, French particle physicist at the CERN

Thomas Horn is an internationally recognized lecturer, radio host and best selling author of several books including his newest books, Petrus Romanus: The Final Pope Is Here, Forbidden Gates and Apollyon Rising 2012. He is a well-known columnist whose articles have been referred to by writers of the L. A. Times Syndicate, MSNBC, Christianity Today, New Man Magazine, World Net Daily, News Max, White House Correspondents and dozens of newsmagazines and press agencies around the globe. He has been interviewed by US Congressmen and Senators on his findings as well as featured repeatedly in major media including top-ten talk shows, America’s Morning News for The Washington Times, The 700 Club, The Harvest Show, Coast to Coast AM, Prophecy in the News, and the Southwest Radio Church to name a few. Thomas received the highest degree honorary doctorate bestowed in 2007 from legendary professor Dr. I.D.E. Thomas for his research into ancient history, and has been endorsed by such national leaders as Dr. James Kennedy. In addition to his scholarly work in apologetic theology, Cris D. Putnam is a bestselling co-author of On the Path of the Immortals and two previous books with co-author Thomas Horn: Petrus Romanus and Exo-Vaticana as well as a contributor to the compilation Blood on the Altar the Coming War of Christian vs Christian. His latest book The Supernatural Worldview: Examining Paranormal, Psi, and the Apocalyptic argues that naturalistic materialism is waning in the midst of "the paranormal paradigm shift." The book presents ground breaking new evidences supporting the biblical worldview replete with miracles, angels and demons.

A good read. As always, with all publications from Tom Horn, I'm not disappointed.My only real problem was the amount of repetition in this book. Writers Putnam and Horn should give their readers a bit more credit.Otherwise an engaging and worthwhile read. Worth a try.

Extremely informative. Information is documented to excess.The knowledge and information revealed completely met their attempt to make known previously undocumented truths.

It is a pretty deep read, most of their books are. But, they are researchers and it is very evident in all the details they include. I find anything with Tom Horn's name on it to be quite interesting :)

Enlightening. Valid scholarship and research into the reality of the biblical Nephilim, the possibility/probability of the entities and similar spirits being with/coming to us soon in this time, the time of "As it was in the days of Noah, so shall it be in the days of the coming of the Son of man".

This book ties scripture into some of the areas that before were never considered as possibilities such as "portals", "paranormal events", etc. that have increased over the years, and today more and more people are talking about these events and the possibility of them having an explanation in the Bible. The authors do a good job of tieing in satanic activity with some of these phenomena and how it relates to scripture. Extremely interesting!

Better than expected...SoO Much Information...alittle too much for me - it was not a long book - not 500 pages but Dense with information.So I had to make myself read it through. I tried just reading chapters i thought would interest me...but each chapter builds on the others and it is just impossible to skip through them...I have to say he is similar to David Ike- However I found 2 gems in all that he wrote that were powerfully interesting to me. And I would recommend this book. Maybe not for everyone.

A must read by all Christians who don't understand how the enemy will creep back in our civilization. A must to take the blinders off.

If this is the first time you have read anything by Thomas Horn and Chris Putnam, be prepared for details. This book is a slow - let me digest this - amazing informative read. Perhaps you've never

heard of the Giants who lived in history. UFO's are real, and we are about to see Prophecy unfold. Photos of UFO events.
