This is a very great guide to Spanish phrases. I have taken up couple of Spanish classes, and I can say that this book can really help me refresh what I learned. It has direct translation from English and even how you pronounce the words correctly. I may not be able to use them daily, but definitely I can use these in the future. I am very confident to recommend this book.

This book is really neat. I know a bit of Spanish words but had problems putting them together. The phrases in this book is what made me purchase this book. Highly recommend!

This was not at all useful in trying to learn Spanish for a trip. It was difficult to use and impossible to

find phases on the Kindle.

This book is just what I was looking for for my next trip to Cabo. The format is great and I'll be able to pull it up quickly on my phone for help when I need it.

I liked that the author not only listed common words and pronunciations but also in the beginning he explained the differences in the language.

It's a quick guide I can use to study with on my phone where ever I am.

This is a great way to learn conversational Spanish, or to take with you on vacation.

This book comes handy. It makes learning Spanish language fun and easy! It is also very organized so you could easily go to what particular phrase you want focus into. I am interested in learning the Spanish language. I like listening Spanish people talking and watch them in amazement. So when I found this book, I download it right away and read it with gusto! I really have fun reading all the phrases out loud and enjoy the learning!
