Customer Reviews

Really good book. I like cooking this way and my wife and I have just bought a slow cooker. The author has put together some really good recipes that are are really easy to follow. Even an idiot like me can prepare them. Also the ingredients are very easy to source and the meals that we have tried so far have all tasted absolutely delicious. Some of these books can be a bit generic and samey but this one has enough fresh recipes to make it a great book to use. It is now our kicthen bible.

As a mom of 3 young children I am busy as all get out. Crock pot cooking is my bread and butter but sometimes I run out of inspiration and get tired of always cooking the same thing. This book is great! It explains the benefits to using a crockpot and what kind of crock pot you need. Then goes into the recipes. Organized into chapters of beef, chicken, pork, and pasta there are a ton of recipes in this book. The recipes are quick- you just dump and go. Which is fantastic for me. I am very happy with this book.

Some great recipes and easy. Throw in cooker and dinner ready when you want. Saves a lot of time. Pot roast recipe I have already tried and it was delicious.

It tells you absolutely nothing you didn’t already know. It says dump in meat add soup, over and over.

As an avid cooker, I was hotly disappointed in this book. The recipes are juvenile and the quality of the publication is terrible. Not with the money - at all.

If you are looking for a versatile pot that serves 4-5 people, look no further than the Crock-Pot Quart

Slow Cooker. A popular brand among chefs as well as non-professionals, Crock-Pot brings us the cooker that produces the unique taste characteristic of slow cooking every time.Well formatted book. This book has provided some great delicious recipes with Easy Meals Ideas for when weÃƒÂ¢Ã â ¬Ã â„¢re In a Hurry. I and my wife are really like the recipes in this book, we are trying one by one. Last night we prepared 'pork Chops with Chipotle Source" it was super delicious. We both enjoyed. Good book indeed.

CROCK POT Dump and Go Recipes by Mary E. WatsonCookbook that includes title, servings, prep and cook time, size in quarts and calories.Ingredient list and how to make in the slow cooker. Nutritional information has calories, fat-not broken up into good and bad, carbs, protein, cholesterol and sodium.There are no pictures of the dishes.Lot of the recipes have you adding condensed soup and other prebought mixes to speed up the process.I do like how the chapters are broken up into different types of meats.

Disappointed in the number and variety of recipes.
