Synopsis

Anti Cancer Best Foods, Supplements, and Essential Oils to Fight CancerBased on scientific researches which prove the effectiveness of these fruits, vegetables, supplements and essential oils to prevent and fight cancerIn 2012, my wife was diagnosed with stage III breast cancer. She went through surgery, chemotherapy and radiotherapy. Since then, she had also been taking the Tamoxifen drug every evening. Four years later, the cancer is back with a vengeance and this time, it is not operable. Now, it’s a metastatic breast cancer (stage IV). The cancer made a hole of 3.5 inches in her sacrum; it compresses and inflames her spinal nerves. At her worst, my wife wasnÃ¢â ¬â„¢t able to walk or sit and a doctor at the hospital told her that she would have to spend the rest of her life in a bed. My wife had 10 radiotherapy treatments, and I must say that it helped her a lot. Then, she had one round of chemotherapy, and we were back to hell. She became very sick after that first round of chemotherapy, and her entire body began to swell incredibly. All the progress we had made with the radiotherapy was gone. My wife decided not to continue her chemotherapy treatments.I didnÃ¢â ¬â„¢t want to lose my wife, so I decided to research like crazy the alternative treatments and particularly the foods and supplements that could help her fight this crazy illness. This book is the results of my research. Oh! And by the way, my wife is a lot better since she cancelled her chemo treatments and began eating the food and taking the supplements you will find in this book. IÃ¢â ¬â„¢m really convinced that my wife would be dead by now if she had continued with chemotherapy. I will talk more about her health at the end of this book.I wrote this book for me and my wife; to facilitate our decisions for our meals and the grocery and supplements shopping. I also wrote this book to answer all the questions people ask me. You must understand that IÃ¢â ¬â„¢m not a doctor; IÃ¢â ¬â„¢m just a husband who didnÃ¢â ¬â„¢t want to lose his wife. IÃ¢â ¬â„¢ve read about 30 books on cancer and healthy foods and hundreds of articles, most of them scientific research articles, about foods and supplements and their action on cancer. IÃ¢â ¬â„¢m more like a journalist who brings you back the information he found.
