But can Noah and the scouts trust everyone who claims to be on their side?

Bryan Chick is the author of the Secret Zoo series. He originally had the idea for the series when he was a nine-year-old and wondered what would happen if zoo exhibits had secret doors that allowed children to go inside . . . and the animals to come outside. Bryan Chick lives with his wife and three children in Clarkston, Michigan.

Purchased the set of The Secret Zoo for my Grandson and he totally enjoyed he books. Purchasing another set for my other Grandson.

My daughter poured through the first three books and was eagerly awaiting the fourth. She got about 3/4 of the way through the book and got really scared and now she won't pick it up. I tried to read it with her, but she is just too scared. I am so disappointed in the way this one ends... and the level of intensity with the violence. It may not seem like much to an adult, but to a little girl that was passionate about these books it is a disappointment that she is too afraid to finish it.

My granddaughter loved this series. They are from Michigan and so is the author, which made it even nicer.

8year old Grandaughter loves anything Bryan Chick writes and cannot wait for the next book!!! We preorder as soon as he has a new one coming out.

I have been reading this series of books with my 8 year old daughters. They read a chapter and then I read the last chapter before we retire. There are really scary moments and laugh out loud moments. We are on the third book of the series right now and have enjoyed every minute.

I have grown to really love this series. I read to my 9 year old son everyday and I work hard to find books that we can both enjoy. I am really looking forward to the next book in this series which will be coming out summer 2013. Great characters (no snotty, vulgar or mean characters), lots of excitement (but not too complicated or scary). Good series like these are VERY HARD to find!

great book series for any age! easy read. love the fact that it makes my kid think that in the real zoo there could be secret places too.

If you liked the others you will like this one too. The action never stops.The adventure continues. I don’t want to give away any details and ruin it for those who haven’t read it. I enjoy reading series, found this one by accident and really like it - the characters, the animals, the storyline. I like it all.
