Tamara Poff holds a BA in Art Education from Michigan State University, with graduate study at Kendall College of Art and Design in Grand Rapids, MI. A painter, former wholesale yarn rep for many years, and an avid knitter and weaver from an early age, she currently teaches rigid heddle weaving in local yarn shops throughout the United States. In these pages, join her mission to share the love of color, texture, fiber, and the creative spirit.

Wonderful idea/instruction book for those of us with small rigid heddle looms wanting to move on from simple projects like scarves to clothing. I like that the author gives information from setup to finishing ÃƒÂ¢Ã â ¬Ã â œ and includes multi-size instructions as well. The photography is beautiful and inspiring. Very happy with my purchase and look forward to trying many of the projects included.

This is an interesting book with some good ideas for expanding the use of the 15" rigid heddle loom.

It is perhaps better for those who do a fair amount of knitting as most of the patterns make use of knitting and crochet to make the woven parts fit. I have a Schacht Cricket that I love but I also purchased a 25" Flip and make garments on that without the need of knitting. For many folks this book will fill a need and add to their enjoyment of the 15" loom. The book is full of great pictures and many well written instructions.

ABSOLUTELY INCREDIBLE BOOK !!! Having had Tammy come to my shop over the past several years to teach weaving, I can personally guarantee that both beginners and experienced weavers will benefit greatly when referencing her book. Not only are her designs wonderful and unique, her step by step instructions outline and clearly explain the techniques she has developed to create them for yourself. What more can I say - I'm a big fan - and can't wait for her next publication.

I must admit when I first got my hands on this book I was skeptical- it looked self published (not that there is anything wrong with that). However this is one of the best weaving books I have gotten. I love that it is specific to 15" rigid heddle, many of the books are for floor looms or larger looms. Great instructions, pictures and patterns for stuff I would actually wear!

I am new to weaving and this book so inspires me to create..wonderful book, great photos and I can hardly wait to start..A must book for someone wanting to dive into weaving.

Although I haven't woven any of the designs, I am anxious to make up my mind. Instructions, supplies etc very clear and easy to follow.

beautiful patterns using mostly fine yarns, a great way to branch out a bit when you tire of making scarves.

Love this book, very informative and easy to understand. Can't wait to get started.
