The experts at The Princeton Review have been helping students, parents, and educators achieve

The Princeton Review has helped millions succeed on standardized tests, and provides expert advice and instruction to help parents, teachers, students, and schools navigate the complexities of school admission. It has exactly the same 3 test than the 2011 edition. You'll waste of your money if you already got the previous edition.

Learning Spanish on my own and this book gave me a better idea of what areas I needed to concentrate on to improve my ability. The link to The Princeton Review is great as it touches on audio (wish it had more of it) and how to approach it to enhance listening skills.

Always need practice for school. This covers more than the class so it helps. Wanted a book of test questions and this is close to what I needed.

A passionate spanish lover, this book is actually helpful. I tried to find even mocked test online, but I couldn't find any, so I bought this book, it contains all the info you need to take the exam and a lot of practices.

Good.

Good amount of practice tests
