Grade Level: Kindergarten - 4

## Customer Reviews

This book is eye opening. People commonly inhale helium out of balloons to make their voice sound funny. It is and has been a socially acceptable practice, The media presents it as funny. Infact I have seen helium being used this way in cartoons and on talk shows. This book educates a little known fact, Inhaling helium can and has been deadly! I use to think it was funny but I didn't know the dangers. The book is It is a great investment, thoughtfully written, with colorful pictures. It has a guide to help you, help children to understand the books concepts. Many adults do not know the dangers of inhaling helium and this book promotes safe use of balloons and helium in general. All of us especially our young children will learn how to be safe with helium balloons.Balloons are beautiful and should to be used as decorations.Let's teach the next generation how to be safe with them. I think it is a great investment. They should be in Dr. Offices,classrooms, and schools our homes. I ordered the matching color book, The paper is very good quality.
