Less costly than the expensive Rosetta Stone! It was so easy. Living Language makes easy to take the CD with you in your car to study. I also bought a dictionary to go along with series but, it is not needed. I love speaking and writing letters in French and plan to go to Paris soon; so now I’m all set and I didn’t break the bank. With the money that I saved on this I plan to shop with!

This course worked miracles for me on my recent trip to Paris. I couldn't converse, but I knew how to take care of my needs. I even gave directions to other visitors. In French.

Very good bookWould like them to add English phonetic pronunciation guideHad to buy CD's to get pronunciation after only buying book initiallyDownloaded CD content only Mac, iPhone and iPad to have pronunciation with me

excelent for beginners ...all about the french language including vocabulary , dictionary and audios cd for learning in easy steps . If you want to learn french in a sistematic and fun way you have to hurry to find this material .

As someone who already speaks a little French, I found this to be a good refresher course. I like having a book to use with the CD's, as the book is able to go into a little bit of detail regarding French grammar, something that many audio-only courses aren't able to do.

Starting a new language as a 40-something is no small undertaking. This package is very entreatable because of its logical progression through the mechanics of the language and because its example recordings are clear (on three CDs). I would recommend this product to anybody wanting to make a serious effort at a new language.
