Customer Reviews

Rocky Bottoms is an anti-hero harkening back to American literature of the 50s and 60s. Set in various locations across the U.S., Vegas Nerves vividly takes us into the narcissistic self-destructive world of a compulsive gambler. His self-absorption is so extreme we can only hope he gets his life together in the sequels. The writing though sometimes brilliant is sometimes rambling. An engaging read, but not for the timid or faint of heart.

Easy Reading. Scares the Heck out of you. Should Make People Stop and Think about what they are doing with their lives

A great read from start to finish. This book provides an honest look into the life of a compulsive

gambler. For anyone is who is struggling themself or knows someone who struggles with this disease, or any addiction for that matter, this book provides unparalleled insight. Highly captivating, entertaining, well-written, and thought provoking.

Excellent book. If you are in recovery or need recovery this book is a must read.

Brand new cover!

"I just finished Vegas Nerves. This story is amazing and brought me to a better understanding of the compulsive gambler. I have heard many sad stories about gamblers but none as horrifying, sad, funny, enlightening, and articulate as this. Wow! What a privilege it was to read and experience this incredible journey."Sheila from San Diego
