Customer Reviews

Baby Professor showcases a collection of subjects that would be educational for kids to help them learn how to do something themselves or shows how something is done or how it came about. Children love to learn through attractive visuals and Baby Prof. is the perfect starting point to get your child the head start he or she needs for the future. Our Motto - "Learning is Fun, so let's Make it Fun to Learn".

Just what the 9 year old wanted.

I am very disappointed with this book. I bought it for a little girl who loves fossils and from the description, I expected the book to be fun and interactive. This book measures 8-1/2x8-1/2 and contains 20 pages of photos and definitions of fossils; some definitions are too complex for a kid to understand. The facts are there and the photos are there, but the FUN part is missing. I would not recommend this book for a kid.
