Synopsis

This title introduces the various processes of carving and painting ducks, raptors, owls and songbirds. It is aimed at those who want to try this craft, with its long tradition traced back to hunters in Nevada over 1000 years ago. This book guides you through the selection of suitable woods, the tools that you require and the basic skills of carving. By outlining many of the different techniques, it allows you to choose your own approach and to carve your own bird, but also gives you the opportunity to learn from some of the country's leading craftsmen.

Customer Reviews

Carving birds from wood is an ancient and beautiful craft. For many, it involves an appreciation and study of living birds that can involve field trips, photographs, and sketches to prepare plans for the carvings. However, for those who would like to skip this stage and get on with their project, this excellent guide offers a selection of ready-drawn plans. "Birds from Wood" guides you through the selection of suitable woods, the required tools, and the basic skills of carving. It then outlines a variety of techniques, which not only allows you to choose your own approach, but also offers you the opportunity to learn from some of the leading craftsmen. Illustrated with a wealth of color photos and diagrams, this is an ideal guide for both enthusiasts and experienced carvers.

The book was in good condition! Thanks

I like the book.
