Synopsis

Reawaken your telepathic connection with all of life and experience the joy of understanding other species, from dogs, cats, and horses to whales, birds, and butterflies. In this two CD recording and accompanying course booklet, Smith clearly guides you through the topics, exercises, and practical guidance found in a live Basic Course. It is intended for those who cannot attend a course in-person with an instructor, and is also effective for continued practice of the materials after attending a Basic Course. As a founding pioneer in the field of telepathic communication with animals and author of the classic books, Animal Talk, When Animals Speak, and Animals in Spirit, Penelope Smith began teaching how to communicate with animals in the 1970 s. Since that time she has tested, expanded, and refined the methods found in the Basic Course, teaching thousands of students all over the world to rediscover and develop their telepathic connection with other species. Many animal communicators around the world have also apprenticed with Smith to teach this course. Reading Smith' s book, Animal Talk, is a prerequisite to attending the Basic Course in-person. To derive the maximum benefit from this two-CD audio recording it is recommended that you read Animal Talk before you begin. It is also helpful to read Animal Talk again after you have practiced your skills for awhile.

Customer Reviews

Communicating with animals telepathically throughout her life, Penelope Smith discovered in 1971 that animals could be relieved of emotional traumas and other problems through the same counseling techniques that helped humans. The training and experience that have contributed to her success are her educational background, with bachelor's and master's degrees in the social

sciences; years of training and experience in human counseling, nutrition, and holistic body energy balancing methods; research into animal nutrition, anatomy, behavior, and care; plus the firsthand education from the thousands of animals she has contacted. Penelope Smith's visionary work as the leading pioneer in the field whose name she originated, interspecies telepathic communication, has been featured in newspaper and magazine articles, numerous books, and on radio and television. She has developed tried-and-true telepathic communication techniques, complementing ancient wisdom and modern scientific knowledge. Her methods foster people's ability to understand and communicate with animals on physical, mental, emotional, and spiritual levels. A legendary teacher for over three decades, she has helped launch the careers of numerous professional animal communicators. Smith feels that the sacred connection we make through telepathic communication with other species is essential for human wholeness. She believes that everyone is born with the power to communicate with other species, and that, although it is long lost for most people, it can be regained for the benefit of all beings on Earth. Smith is the author of the popular, classic books on the subject, Animal Talk (available in many languages), When Animals Speak, and, Animals in Spirit. She is the editor of Species Link magazine, which she founded in 1990. Her audio recordings include the Animal Communication Mastery Series, Animal Healing Power, Animal Spirit Call, and the How to Communicate with Animals Basic Course.

I just began this course. It is easy to follow and learn from. My only complaint is that some of the training exercises require a partner. I do not have anyone to practice with. I wish the exercises were able to be completed alone.

Practical and very nice. I especially like the singing, in the beginning of the cd 1 , it is very calming. Only problem is that you have to have a partner to practice....

Penelope Smith offers plenty of guidance for those of us who want to communicate telepathically with our animals. Our skills have definitely developed with these CDs. Thanks to Penelope for putting this together!

If you do not have a human partner to practice with you will be disappointed in much of the practical exercise portion of the course. Beyond that, Penelope is not called the Grandmother of Animal Communication for nothing!

This product was sent to my sister in-law to help her with the new puppies and she loves it.

Thank you Penelope. This will be so helpful to me and my animal family.

Have listened to this over and over, along with my cat mate!

Pretty good. The only thing is that you need a practice partner to move along with the exercises.
