Customer Reviews

Great book lovely book

This is a good addition to my library on Japanese ceramics. It has some useful information, however it is impossible to create a reference book that includes all of Noritake wares and marks.

GREAT PRICE FOR A GREAT BOOK.

I was looking for a good reference on Noritake dinnerware. This one is adequate in Dinnerware but very good on non Dinnerware items.

Used as a resource for identification purposes.

I liked this book

Joan VanPatten’s book is not for the china pattern enthusiast. This book is for serious Noritake collectors who want to see the broad range of products this fantastic factory produced in its early years.This book only focuses on the "pre-war" years when Noritake’s products were first being imported into the US and other nations. Joan’s book provides excellent backstamp references so you know what you are buying as well as to know what the reproductions look like so you don’t get taken.You will see the eye-popping best of the best you may only see available on ebay or at a Nippon show. However, once you know what to look for and are educated; you can pick up some incredible deals from antique dealers or garage sales because you know what you are looking for.The down sides, some of the pictures in this book are replicated in her other books. The price sheet is in the back at the book...very irritating when you are going back and forth from picture to price sheet to learn values of items.

Nice reference book, easy to follow with a price guide in the back. Unfortunatly, it has a limited number of patterns represented and no information on the types of pieces available for all but 4 or 5 patterns. I purchased this book hoping to learn more about the Rosemarie #6044 pattern I inherited from my father, but will have to try again with a different reference. I ended up keeping it for the information on patterns from the 1920’s. It’s helped me identify a Morimura Luncheon set from 1922 and other Noritake items I’ve purchased. The book also contains some limited information on old advertisements and some care suggestions for fine china.
