Customer Reviews

I sent it as a gift and she loved it.

I've been considering taking up candle making as a hobby because I need a new craft and because I love candles. Plus, it just sounds like a lot of fun. I think that if I were really going to get started on this new hobby, this would be a good book for it. It teaches you how to start from the very basic of basic candles and has instructions on how to do increasingly complex candles, right up to decoupaged and painted candles.
