When I received this 8 x 5 inch pamphlet, I was shocked. Practically devoid of content, I wasted five minutes reading 48 pages of, on average, 16 double and triple spaced lines, in a font no smaller than 20. I was mortified to find the content of this dilute volume persistently repeated. And, adding insult to injury, presented with a multitude of glaring grammatical errors. Trudging thru poorly presented common knowledge, searching for the few rare nuggets of novel information, was painful. I apologize if I sound mean. However, I spent 9 dollars on less information than is found on the back of a child’s sugar filled cereal box. To Ms Jacob’s credit, she is an astute capitalist. And, the knowledge of the source of this sham stops here. This pamphlet does not list the author, the editor, the publisher, or any other identifier we normally see in printed reading material worth over 50 cents. Naturally, I assumed it came from the tent of an ambitious foreign child. No such luck; on the back of the last page it states "Made in the U .S. A." and lists the city and state (I won’t share that information. The Mayor and Governor should be ashamed to have, on , evidence of their inability to educate their 5th graders). Really, this reminds me of a poorly executed homework assignment haphazardly written late one night by a distracted and tardy 5th grader. This unedited, poorly formatted, scant and repetitious information is fraudulently advertised as a "Book". The only redeemable attribute is the picture on the cover. To ’s credit, this is the first time I am experiencing unacceptably poor quality in one of their products labeled "book". Who knew? Purchasing a "book" is a gamble! I feel cheated.

A coworker of mine told me about how she uses the "no pooÃƒÂ¢Ã â ¬Ã Â• method and has had great results. I find that conventional shampoos strip my hair of its natural oils and leaves it dry and lifeless. After a quick search, I found this book for cheap and tried the Coconut Milk Shampoo for dry hair. It seems to have made a considerable difference, and it smells great too! This book has

shampoo formulas for every type of hair out there, and provides all the information for creating and storing them. I would recommend it to anyone looking for a healthier, safer, cheaper, and more effective way to wash their hair.

It’s really hard for me to find a natural shampoo that works for my hair type, so I like the idea of making my own shampoo. This book has tons of easy recipes and a lot of the ingredients I already have in my house. Really like it and recommend.

Though short, this book will give you a lot of useful information about making your own organic and natural shampoo. Read this book and learn how to maintain a healthy glowing hair.

I AM GOING TO SEND A PRINTED COPY OF THIS BOOK TO MY SISTER. I ENJOYED READING IT AND I ’M SURE MY SISTER WILL ENJOY IT.

I like the ideas, but not sure if they’re everything I’ll need in order to really create something spectacular. Book needs some proof-reading and maybe that put me off.

great extension for soap making

I really liked this book, it has simple formulas for all types of hair care.
