Don’t waste your time and money. Huge disappointment! Recipes are few and far between. More everything you should know about goats before you ever have them. I have them, I wanted to benefit from their milk. This book is not it!

Too much information on raising goats and not enough on value added products. I know how to raise goats; I was looking for a book filled with recipes and more in-depth on how to on those recipes.

I haven’t read the whole thing, but browsed the chapters I was interested in. What I’ve seen so far is exactly what I was hoping for. In fact, I’ve already purchased my lye to make soap and a drop spindle for spinning. I’m looking forward to some down time so I can really get into this book.

This book has more then I expected in it. Very informative for any goat owner, new and old. I absolutley love the recipes and how to section.

Lots of good information. An well written hold the attention of the reader. I would recommend it to anyone interested in goat’s.

We totally enjoyed reading the book!

All kinds of info, fun facts, recipes etc.

Just what I needed to enjoy using all parts from the goats. Could not ask for a better book.
