She lives in Asheville, North Carolina.

Made a bracelet right away after receiving the book and it turned out perfect. The only problem is that I have to make another one now since the bracelet ended up being a gift to someone else!

Instructions were good and easy to follow.

Well written, easy to follow. Has a project for all levels.

Not what I expected or hoped for. Many of the projects involve wire wrapping and shaping wth litte beadweaving.

Wasn’t overly excited about the examples but the instructions are pretty good. Putting it up against the huge numbers of books of the type, it wouldn’t be my favorite but it’s still good.

I like it I have a thousands of dollars worth of crystals and I think this will help me use them up!~

Good diagrams

great ideas
