## Customer Reviews

A delightful read! I have long been fascinated by India. I learned so much from this book that I did not know.

It is a wonderful guide for everyone who is either travelling to India, working with Indians or just curious to know about Indian culture and its people. The book has a flavor of humour, but is loaded with facts. After reading the book, I watched the movie "The Second Best Exotic Marigold Hotel" and I could understand the movie in a while different way. What has been explained in this book, a lot of it is seen in the movie. This is an amazing read for all and is a great stressbuster too. Highly highly recommended. *****

Wow, what a read!!! Once I started reading, I could not stop. It is such an interesting factual introduction to Indian psyche. What Indians do and why they do it? I wish this book was published before my first trip to India. I hadn't been so confused or puzzled. I would have enjoyed even more. India is full of culture, colors, traditions, rituals, spirituality, philosophies.....and then if you understand its culture and people, it just doubles the richness of experience. I highly recommend this book for anyone visiting India for any purpose or reason. Even if you are vising to attend a friend's and would be there for just 3-4 days, this book will enhance your experience, delight and fun. Thank you to the writer for sharing....
