Synopsis

The most-often-used Italian regular and irregular verbs are presented with English translations in this quick-reference format. The six-panel card is laminated for long life and punched to fit either a two-ring or a three-ring notebook. The verb tenses are listed and explained in both active and passive voices, with information on how to use them in sentences, which makes this title a fine supplement for language students and travelers to Italy. Italian is the latest in BarronÃƒâ Ã¢â ¬â„¢s new series of Foreign Language Verb Conjugation Cards. Others are available in French, German, and Spanish. All are printed in full color on laminated card stock.

MARCEL DANESI is a professor in the Department of Italian at the University of Toronto.

Just what I needed to learn the Italian verbs, and all in a few pages! The plastification makes it very sturdy and durable.

Great condition. Packaging was superb. Stiff inserts protected the integrity of the laminated sheet.

Great addition to my collection of Italian language learning materials. I’m very happy to have this. Fast shipping. Always appreciative of great service. Thank you.

Great material! Thanks!

This helps with my Italian studies

As a teacher of Italian for adults, who are quick and demanding learners, I know how important it is to have handy a quick review chart of Italian verb conjugations which can be very useful when you cannot remember the difference between the future endings and the conditional (they're so similar!) So it's nice to have this chart readily available to refresh my recollection of the tenses. Since we are not immersed in Italian, we need to do a lot of memorization of verb conjugations in order to master the differences in tenses. I need all the help I can get sometimes in order to remember all these tenses!

Great tool for sharpening my italian language skills. Carry it around with me; great reference

Good quick reference
