Customer Reviews

An appropriate amount if revelation and intriguing mystery; loss & despair balanced with hope and redemption. I like the shift in narrative was, I think, a wonderful way to uncover the past while progressing the present events. If you've already read the others ... you'll find this a worthy terminus ... I'd love to read more about the broken Earth...and it's future...

A stunning work of speculative fiction, and an instant classic as far as I'm concerned.

Good end to the sotry, I especially like the different perspectives.

This trilogy completely captivated me from start to finish. I have never been more emotionally invested in a fictional story than in The Broken Earth series.

Another phenomenal job. Bravo!

Good read becomes great read in final 3rd! Very enjoyable book and excellent page turner. It was the perfect book to read on vacation!

One of the most amazing series I have read in many, many years. Thank you for all of these great books.
