Synopsis

Whether studying chemistry as part of a degree requirement or as part of a core curriculum, students will find Chemistry Essentials For Dummies to be an invaluable quick reference guide to the fundamentals of this often challenging course. Chemistry Essentials For Dummies contains content focused on key topics only, with discrete explanations of critical concepts taught in a typical two-semester high school chemistry class or a college level Chemistry I course, from bonds and reactions to acids, bases, and the mole. This guide is also a perfect reference for parents who need to review critical chemistry concepts as they help high school students with homework assignments, as well as for adult learners headed back into the classroom who just need to a refresher of the core concepts. The Essentials For Dummies Series Dummies is proud to present our new series, The Essentials For Dummies. Now students who are prepping for exams, preparing to study new material, or who just need a refresher can have a concise, easy-to-understand review guide that covers an entire course by concentrating solely on the most important concepts. From algebra and chemistry to grammar and Spanish, our expert authors focus on the skills students most need to succeed in a subject.

This is a great review book, however if you've never taken chemistry it will break you in gently. It makes it very easy to understand!

A very good review for people who took chemistry a while ago

Wish I would have ordered it earlier. But it did help in my fast track chemistry class

I bought this book really late into my semester to help me pass my Chem class. I should have ordered it a lot sooner. I ended up failing the class by two points, but this book made the difference. So now when I retake the class in the fall, I am prepared.

Bought it for my son who is in College and he says that it has helped him.

Now I can learn what I wanted to in High School!!

Hope it helps my granddaughter this year

Good book for students needing an additional study source for their Chem class.
