Customer Reviews

A good read that has some very prophetic story lines in it. A bit slow to start, it really picks up and

runs with a tale that you can’t put down.

This book reads like a suspenseful cat-and-mouse action movie! I was literally on the edge of my seat ÃƒÂ¢Ã â ¬Ã â œÃƒÂ¢Ã â ¬Ã â œ breathless at times. Subplots are woven together well, and chapter scenes are "cut" back and forth to keep you up on what all main characters are doing. The author also paces the story (which gives you time to catch your breath). Great story, and I can see how it leads into the next book in the series.

I could not put the book down. Hopefully we won’t end up this way. Off to read the next one.

Once again S. Konkoly does not disappoint. I have read his previous books and especially enjoyed the characters that are thrown into traumatic events from their normal life.Fractured State takes this up again but mixes it with more military influence like found in the Black Flagged series.If you enjoyed his previous books you will definitely enjoy this one, if have not read any of his books, start now.

I just finished reading it and I said give me more, I immediately started reading book 2, Rogue State.

An explosive start to what promises to be another high stakes, all in adventure. If you’ve enjoyed Konkoly’s previous work you’re in for more treats. This mildly dystopian near future invites you into starkly competing values and visions. The choices may be clear but the outcomes will drive you to the edge of your seat. And keep you turning pages fast. We’re out of the frying pan and into heavy fire. Can’t wait to read what’s served up next!

If you read Steven Konkoly’s books you will find great characters and always a great Marine! I love them the most and wish I knew one or ten! If the SHTF I’m going to look for a group with the most Marines! Great story BTW, I finished just in time for the next one!

I am a native Cali woman, now living in Arizona. This book gives a reason to think about what it could be like for California to try to cede from the US.Poking forward to starting book 2.
