Planning a dive trip to Roatan in April 2017. This book is a trove of information for all of Honduras.

I have been to Amsterdam more times that I can count. That's because I live in the Netherlands. And I wanted a book that could give me some ideas to go to next time I will visit Amsterdam, and this book has provided that information. I have seen multiple places the book writes about already and they are all great places to go to. But even after that many trips to Amsterdam I have never been to more a few places described to the book. So next time I go I will definitely put some on my to do list!

Loved it

This book offers extensive information on the different regions of Amsterdam and things to do in each region. This is the best book IÃƒÂ¢Ã â ¬Ã â„¢ve found on Amsterdam travel. All of this excellent information are sections on night life, how to get around, where to stay, how much to budget for. I want to say that this book is full of excellent information about Amsterdam.

I have been looking for my next place to visit, this book is a much better way than putting your finger on a spinning globe. This book takes out the guess work of finding hot spots in Amsterdam, instead it gives you well informed choices and tips. Great thing is I can take this on the plane and it wont

take up any more space in my luggage!

I’m planning my travels to europe and want to stop in Amsterdam. Especially to see the Van gogh museum. This guide was short but packed with the top 10 best places to visit and things to do while in Amsterdam. Good helpful read.

No maps, just a list and a few paragraphs about each, no pictures. No listed in suggested sequencing nor how long to plan to spend at each site.
