The condition of my book arrived as described. It was in good condition

I love Robert M. Place’s work and would be interested in reading this book, preferably on my Kindle, but seems like this will NEVER be, for reasons that elude me, and I’m sure every other potential buyer, the Kindle version is priced at 29.95! Hmmm.Consider the PRINT paperback version, for which actual materials are used and people work to assemble, ship, distribute, etc. is priced at 9.86!That’s right 70% cheaper than the e-ink, ones and zeros version, and if you were to want the hardback version you can get it used for 0.01 cents! a 99% discount.Seems to me the ebook pricing strategy for this (and it seems many others in the series of Mysteries, Legends, and Unexplained Phenomena) is absolutely UNREASONABLE.If the  info is correct it is also only 136 pages. That basically means you’re paying a dollar for every 5 pages, sorry, virtual pages.No wonder there are zero reviews. I encourage the publisher to reconsider the price and perhaps sales will rise, at least by one copy.Rating this item 3 stars because I consider the author’s work to be of the highest standards and would not like buyers to think otherwise.
