Customer Reviews

A good quick read on the approach to find the treasure. Interesting assumptions. Worth it I suppose. I would buy again.

Basically, I just bought a book that I can read online. It’s ok but it’s all common sense. Chalk it up to a loss for me and a win for Maxwell J. Steele.

didn’t provide any new information, basically said to read the book which had already done. was looking for more helpful hints

I was dissapointed that there was not more background and history where a person could get more clues on where to start looking.

Not impressed. All this information is in the books he wrote.

there is saying "you get you paid for". In this case, it is overstatement. This thing is completely useless, I’d rate it below zero, if possible.

If you have already been looking for the treasure for a half hour you will know everything in this book.
