Mary Hoffman has written more than ninety books for children. She lives in rural Oxford, England, with her husband and three Burmese cats. Ros Asquith has been a cartoonist for the UK Guardian for twenty years. She lives with her family in London.

My ex husband and I split up while I was pregnant with our only child and he’s been a transient parent. My child recently turned 5 and has started asking questions about family dynamics; this book really helped start a dialogue about families and it supports my belief that families come in numerous configurations.

Great Book! I don’t know of any family types that were omitted here. Because one of our children and her child is part of an alternative family, I was looking for just such a book. I was more than happy with this one. It’s darling.

This book is fantastic! A great tool to use to teach tolerance & acceptance of different family structures & how people live.It is has been a nice book to have further discussions about different families (and our kids are 3 and 2 & 1/2).

Cute illustrations and great message about the diversity of families. Just what I was looking for. Thanks for the LGBT inclusivity!

fun family book

I needed some texts that expressed the variance in family structure and appearance to "normalize" my son’s experience while his father and I separated. This is a great one, and his teachers have even decided to purchase it after we shared during family week!

I loved this book! I read it to my Kindergarteners, and they loved it just as much as I did!!

Absolutely adore this book - I want to buy it for everyone. Such a simple and straight forward explanation of the many differences in families and my 3.5 year old son love it.
