Customer Reviews

Game of Thrones tambuyatTakes a while to read and and the storyline is amazing and I highly recommend. My son and younger brother really had a great time from this book!

I am an avid fan of Game of Thrones. When I found this book, I didn't hesitate to download this book and it was really worth the read! I had a great time reading and learning at the same time from this book. I get to know the characters even more and I couldn't help making my own theories as well. The theories written by the author are quite possible. This just gets even more exciting! I can't wait to know what will happen next to these two masterminds of Westeros.

32 pages that reads like a high school book report. Really should have looked closer before buying. The positive reviews are super dubious.

Truly dazzling hard to put down.The books give a better backgroung and clarify characters in depth.I am really delighted in the book..Spend great time with this read ,Thanks

I love watching game of thrones especially that it becomes a book. A good read! Time well spent.

Quick read about the 2 most dangerous men(well 1 man and a eunuch) in the world of Fire and Ice. Nice insight and I enjoyed the Varys section due to never paying that much attention in the small details of the books

good for game of thrones fans , i enjoy reading it
