Synopsis

Readers of the best-selling Christy Miller Series want to know more about Christy. What was she thinking and feeling as she went through High School? During college? Her first year of marriage? Now all the heartfelt details are here on the pages of Christy Miller's Diary. As the characters from this series have continued to mature and grow in their faith, Christy has faithfully kept her diary, the pages of which are now open to the reader.

Age Range: 12 - 17 years

Grade Level: 7 - 12

Customer Reviews

I am a very big fan of RJG, I have been waiting to read this book since October 2010 and when I got it about a month ago I was so so so excited! It's a great book like all the others - talks constantly about Christy's life and how she was feeling about Todd. I love her story so that was awesome, however I was hoping for more new material - if you have read the series there isn't much more to it.. that really disappointed me however the book and complete series is definitely my favorite ever! Read it! :)

I had two friends suggest this series to me within days of each other because their daughters couldn't put it down. The storyline is relevant to issues kids (especially girls) face today, and I love how the author brought the focus to Christ and how He changes hearts and lives. I bought the first

volume for my daughter and before I knew it she read all three books and was ready for the next volume. After finishing all of the books, she was glad to get one more "fix" of Christy Miller with this book. I highly recommend this series!

This book was sweetly written once again by Robin. It was almost a trip down memory lane if you read the series and has you remembering how Christy struggled along the way but once she gave her heart to Jesus completely things that were complicated became easier as she focused on what precious things God had in store for her

This is not usually what I read but I bought it for my daughter in the next couple of years to read. I read it first not to see if it would be appropriate but to see if she would like it in the long run. I think it is good for younger teens but not for older teens or adults.

I loved this book!!! My friend introduced me to these books last summer and I just finished them and bought this one. It’s a great book that goes into Christy’s thoughts all through the series, my favorite part being when she got married. A great finish to the series, and great start to the Katie Weldon series. I loved it!

As much as i love the christy miller books, this one is really just rereading in spots that you dont pay close attention to in the series. I do like that it shows her point of view from when she went to Europe during the Sierra Jensen series, but other than that, it just helps catch other people up if they havent read them all yet.

This was purchased as a gift for a Christy Miller fan. They had read all the books in the series, and were wishing for more books to be added. Unfortunately, that hasn’t happened. However, this diary was a nice surprise while the wait continues for more books. This is a diary, but it does have a little more information about "Christy" for fans!

Love this series. My 12 year old daughter has loved reading the series. She has shared all of her books with several friends too.
