If you’re an accountant dealing with SSARS 21 in 2016, BUY THIS BOOK. I’ve spent hundreds of dollars on other sources that are too complicated to deal with and they really don’t clearly explain the ’preparation’ portion as much as the compiled/reviewed updates. This book has both ’preparation’ and ’compiled’ in ENGLISH with good examples. This book will guide you where others just bury you.

This is the best resource that I have found concerning the implementation of SSARS 21 for Preparation and Compilation. If you are concerned about this (and you should be) this is indispensable. It discusses the new preparation and compilation standards plus contains examples of engagement letters and financials for both. This is worth many times the price.

This book is wonderfully written and easy to follow. Everything is at your fingertips you need to know for the new standards under SSARS 21. Sample engagement letters, opinions, and disclosures are all discussed and presented in an easy to follow and understand format. I highly recommend it as a

reference manual.

Help me with 2 customers. Recomended...

I just finished reading Charles' book 'cover to cover' while captive on the treadmill over the past few weeks. I learned more about practical issues of attestation than I had from all other sources combined.

A great well written book. Very useful in my accounting practice.

I have been a CPA for 30+ years and I found this book to be very helpful for understanding the new standards. Buy this if you just need a "plain English" explanation of the new rules.

This is just what I needed.... short and to the point! Thank you!!!
