Customer Reviews

...a mini museum between the covers of a book. [Eyewitness series] -- The New York TimesThese books' striking visual impact will draw in even the most casual readers. [Eyewitness series] -- School Library Journal --This text refers to an out of print or unavailable edition of this title.

"With full-color photographs and careful anatomical drawings, charts, and diagrams, Fish educates even the casual browser. Each two-page section opens with a general text, while captions underneath the numerous pictures generously provide specific facts about every facet of fish life--camouflage, early fishes, oddities, and physiology. Libraries will not want to be without this absorbing entry in the Eyewitness Books series."--Booklist. --This text refers to an out of print or unavailable edition of this title.

Beautiful illustrations and good price!

Great series! Book as described by seller!

I purchased this book about fish and gave to my eight year old grandson . He is always interested learning about different type fish and what look like . His dad takes him fishing out in the Gulf of Mexico often . He was happy when he opened his Christmas gift from me and saw it was a book all about different kind of fish

DK Eyewitness books are amazing. We have several in my classroom library, and they're always student favorites.

Great book for my son as he spends hours looking at all the fish

Out of all my sons Christmas presents he says this is his favorite. He's obsessed with fishing & fish tanks so he loves looking at the pictures and asking me what's what. If your little one likes fish as much as mine does they will love this book. He goes to sleep every night looking at it

I bought this for my 6 year old grandson who is not only fascinated with fish but an avid fisherman as well. He loves this book (so does his Grandpa). The pictures are beautiful and the text is easy to read and understand. This is an excellent book for any fish lover, child or adult.

Beautiful pictures and clear information. Like always DK Eyewitness books are lovely and well organized. This book was a perfect addition to our family's library and perfect for my son to look at different types of fish.
