Synopsis

This extraordinary construction kit contains eight different models to build yourselfÃ¢â ¬â ¢from a delightful car with driver, to a pop-up monster, or a plane with propeller. There are perforated construction sheets for each figure and additional material, including wooden sticks, rubber bands and beads, and an extensive manual with detailed step-by-step illustrations. Even non-experts will be able to build these Paper Toys. The colorful results will delight not only children. The models have been lovingly created and include ingenious mechanisms: when you push the car, the driver and his luggage sway amusingly from side to side, caused by clever positioning of the rear axle. The doll moves gracefully at the slightest breath of wind, and the clownÃ¢â ¬â„¢s facial expression changes when you turn the wooden stick. Presented in a beautifully designed metal box, this is the perfect gift for all.
