## Customer Reviews

John Sazaklis is a New York Times bestselling author who lives with his beautiful wife in the Big Apple. He enjoys writing (and sometimes illustrating) books on his favorite characters. To him, it’s a dream come true!

My son loves Rescue Bots and these books are just right for bedtime. Long enough that it feels like a big kid book for him but short enough to keep his attention

enjoyed reading with my son

My son loves this book. Good quality and a good price.

one of their collection

My three year old, Willy loves the Rescue bot series. These books are a perfect fit for him. He loves them and it gives another way to give him his rescue bot fix with turning on a show! He asks for these every night since they arrived. I would highly recommend them for young children. As he ages he will be able to read these on his own as well because the books are written for early readers. I believe these will be a favorite for a few years in our house.

Everything Rescue Bots is great for the kiddos. Just do it!

Nice book for the price. Great pictures and story.

The series to produce more of these books. My kids are big into Rescue bots right now.Many of the Rescue Bot stories are just rehashed tv episodes, but a parent with soem imagination can take that and expand on it, use it to help teach their children to learn letters and words with a story the children are already familiar with from the TV episode.Only problem is after a week of reading the same 5-7 books over and over each night, they still want more Rescue Bots, but not the same story.
