I believe I’ll be sending this back. This is IMPOSSIBLE to understand. I’ve sat down with it 3 times now and asked my husband what his thoughts were. I figured it was just me. I’m not musically "gifted". But neither are most kids that are trying to learn how to play an instrument for the first time....Regardless, husband said the same thing. Will look for YouTube videos to teach. I think that might be easier for a 6yr old. We’ll see.It is nice looking and arrived packaged well and in time.

Do not order this book. The chords are wrong. I was going to return it but no time before Christmas so I corrected the chords. It baffles me how it found its way into print with so many mistakes!

My 8 year old daughter received a guitar for christmas but has no idea how to use it so I bought this book. Now she is learning chords and simple songs, she is so proud and so am I.

Purchased to go with beginner guitar. Present for my 8 year old grandson birthday. He loves it. Easy to read.

Good for my grand daughter just beginning to use a guitar.

The information printed in the book as not accurate.
